

Hannah Park

Data scientist and backend engineer

617-555-0121 · hannah.park@example.com · linkedin.com/in/hannah-park-example · github.com/hpark-example

EXPERIENCE

HubSpot
Software Engineering Co-op

- Built the lead-scoring feature store backing the CRM's predictive contact score
- Cut model retraining time from six hours to 40 minutes by caching feature joins

Cambridge, MA
Jul 2025 – Dec 2025

Wayfair
Data Science Co-op

- Ran a pricing experiment on 80k SKUs and wrote the analysis that shipped to all furniture categories
- Replaced a hand-tuned demand forecast with a gradient-boosted model, lowering MAPE by 11 points

Boston, MA
Jan 2024 – Jun 2024

EDUCATION

Northeastern University
Bachelor of Science in Data Science · GPA: 3.70

Boston, MA
Expected May 2026

SKILLS

Python, SQL, Spark, XGBoost, Looker
